

It's a Wild World!

Can you design a wonderful home for wildlife?

Over the past 50 years we have seen a decline in two thirds of the UK's insects, birds, mammals and amphibians.

Creating a wide variety of wildlife habitats is a great way to encourage a broader and stronger biodiversity into our gardens.

COMPETITION!

Design a wonderful home for any wildlife that may be found in your garden or local park. It could be a bug hotel, beehive, dormouse nest, birdbox, butterfly house or hedgehog house.

Include recycled materials as much as possible, and also some plant material, whether fresh, dried or living. You could give it a theme if you want, for example using old tennis rackets to reflect the Wimbledon area.

Our Eco Reps will help judge the competition, and there will be prizes! Ideas from the winning designs will

be submitted to this year's **RHS Hampton Court Flower Show Schools Competition**. If selected, we will build our winning design to be exhibited at this summer's Show!

Draw your designs on A4 paper. Include some labels explaining different features you have included. Put your name and class on the back.

Entries to Mrs Hampshire, 5B, by Tuesday 22nd January.
