

Hedgehogs at Wimbledon Chase! [See our assembly here!](#)

We are so lucky to have wonderful wild areas around our school grounds. We have therefore welcomed a rescue hedgehog to come and live here.

Here is Spike the hedgehog making himself at home in his new cosy house in our wildlife area.

We have provided a predator-proof feeding station, to help Spike and his new friend Bramble fatten up before hibernating for the winter.

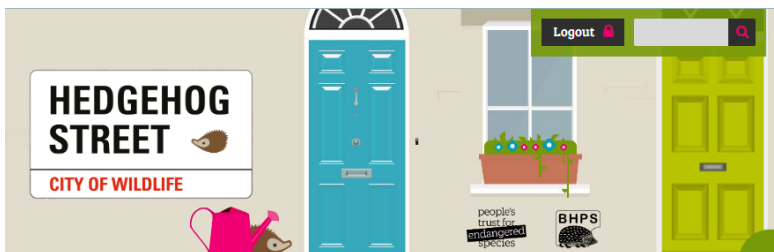

Please do not disturb our hedgehog feeding station.

What can you do to be a Hedgehog Hero?

- Leave some wild areas in your garden. These are full of insects providing a hedgehog feast!
- Put out a shallow bowl of clean water.
- Create a little shelter out of leaves and grass in a quiet corner of your garden.
- Don't disturb log piles in the park.
- Help keep litter off the ground.
- If you see a hedgehog wandering around in the daytime, it probably needs help. An adult can ring a rescue centre like Parsons Prickles in Morden.
- Spread the word! Tell your friends and family - the more people who care, the more hedgehog homes we can create!

Log on to Hedgehog Street, a conservation charity to find out lots more amazing facts.
