Parent Forum Agenda – 19th November 2026, 5:30-6:30pm

Welcome and introductions

Review of the minutes from the previous forum

Feedback on the **actions completed** from the last forum meeting

- Role of Class Rep clarified – actioned, would welcome feedback on this.
- Information about clubs to go out on 20th November for sign-up on 23rd November to allow for choice and childcare/work arrangements – actioned.
- Development of a screen time policy in school – in process.
- More inclusive approach to invitation to sporting events - actioned, would welcome feedback on this.
- OPAL Play programme – actioned, the Friends have funded this, with planning already underway.
- More opportunities for pupil voice in developments within the school – actioned, would welcome feedback.
- When pupils get appointed to roles and responsibilities, they need to have clear opportunities to fulfil these – actioned, would welcome feedback.
- Provision for performing arts – the school to make this a priority for this coming year, some events this year have already taken place, but more to be done
- Healthier options of food including more jacket potatoes – actioned, discussed with the kitchen and would welcome feedback
- Improved food options in wraparound care – in process, with plans in place for January.
- Library to be open during lunchtimes – actioned, with year 5 pupils opening this every Wednesday lunchtime.

Development of the **school's screen time policy**, considering the following questions:

1. **Screen use in school:** What would you like to see in place to ensure that children's use of digital technology supports and enhances their learning?
2. **Balance in learning:** What would you consider an appropriate balance between screen-based learning and other experiences, such as reading, writing, practical activities, play and physical activity?
3. **Learning and wellbeing:** What would you like the school to consider when setting expectations around screen use to support children's concentration, health, social interaction and emotional wellbeing?
4. **Home learning:** What would you like our home-learning offer to look like in terms of digital activities? How can we ensure a balance between online learning and activities away from screens?
5. **Shaping our policy:** What recommendations or expectations would you like us to consider when developing a school-wide approach to screen use that reflects the needs of children and families?

School environment - What steps could the school take to address the issues of serve heat in the summer, including the additional planting of tress?

School events – What days/times work best for families to attend events, including information sharing and workshops, in school?
